Tundra Split Rear Dual Exhaust Revised Exhaust Hangers

Applicability

YEAR(S)	MODEL(S)	INSTALLED ACCESSORY INFORMATION		
		DESCRIPTION	ACCESSORY CODE	KIT PART NUMBER
2007-16	Tundra	Split Rear Dual Exhaust	DE1	00016-34731, 00016-34734-03

****This Publication does not apply to Vehicles Originally Equipped with OE exhaust from the factory, TRD exhaust System, or Systems added by other manufacturers.**

Introduction

On vehicles equipped with the SET accessory Split Rear Dual Exhaust system, the exhaust pipe may become loose due to the rubber isolator separating from the bracket. This will allow the exhaust pipe to come in contact with the frame or suspension and cause a rattling noise. The exhaust pipe is still supported by the remaining brackets. An updated rear exhaust hanger bracket is available to maintain correct alignment of the hanger and Rubber Isolator.
