

SERVICE ALERT

DEF INJECTOR ASSEMBLY REPLACEMENT

Release Date:	9-23-2016
Affected Years:	11MY-17MY Hino Conv. Trucks and 13MY-17MY Hino COE Trucks
Affected Models:	All Trucks Equipped with DEF/SCR System
Attention:	Service Managers / Service Personnel / Technical Service Managers

SUBJECT:

The following service alert is to advise about the DEF (Diesel Exhaust Fluid) Injector if it's being replaced under warranty. The recent changes made to the DEF injector include enhancements to the aluminum housing. When the DEF injector is being replaced, the complete assembly including the housing, must be replaced as a unit to be covered under warranty as directed in TT-16-009. From this date forward, this component **will not** be covered under warranty unless it's replaced as an assembly.

To ensure a repair is covered under warranty, consult the Hino Warranty Policy Manual or contact the Hino Warranty Department for specific coverage information regarding this repair.

Sincerely,

Your HINO Service Team
