## 00 DTC U110500 (Transport mode active) cannot be cleared in 2017 Q7 vehicle

00 16 80 2042954/2 January 11, 2016. Supersedes Technical Service Bulletin Group 00 number 16-79 dated January 8, 2016 for reasons listed below.

Model(s)	Year	VIN Range	Vehicle-Specific Equipment
Q7	2017	All	Not Applicable

## Condition

REVISION HISTORY		
Revision	Date	Purpose
2	-	Revised <i>Condition</i> (Added Tip) Revised <i>Technical Background</i> (Completely revised) Revised <i>Service</i> (Added information about ignition and engine status)
1	01/08/2015	Initial publication

- The vehicle cannot be taken out of transport mode.
- **DTC U110500** (Transport mode active) is stored in the ABS control module, J104 (address word 03).

**Tip:** It is not necessary to contact TAC for this issue.

## Technical Background

The ABS module is causing the DTC.

If the vehicle is taken out of transport mode while the engine is running, the ABS module will remain stuck in transport mode and cannot be cleared.

## Production Solution

Not applicable.

## Service

Only take the vehicle out of transport mode with the ignition on and the engine off. If this does not work, proceed as follows:

1. With the ignition off, disconnect the ABS module, then reconnect it.
2. Cycle the ignition on, then reactivate transport mode through the GFF test plan.
3. Perform the GFF transport mode test plan again and deactivate transport mode.
4. Clear all DTCs and check to see that the issue has been resolved.

## Warranty

This TSB is informational only and not applicable to any Audi warranty.

## Additional Information

All parts and service references provided in this TSB (2042954) are subject to change and/or removal. Always check with your Parts Department and service manuals for the latest information.
