Brand:	Model:	Model Year:		VIN:		Engine:	Transmission:
		from	to	from	to		
Chevrolet	3500HD Medium Duty (LCF)	2016	2016			I23 (3.0L)	All
Chevrolet	4500HD / 4500XD Medium Duty (LCF)	2017	2017			I1B (5.2L)	All
Chevrolet	5500HD /5500XD Medium Duty (LCF)	2017	2017			I1B (5.2L)	All

Involved Region or Country	North America
Additional Options (RPO)	Equipped with Diesel Engines

Isuzu Diesel Engines

Isuzu diesel engines use a long life coolant which is green. The addition of conventional green propylene glycol coolant will damage the engine.

The factory installed Isuzu long life green coolant will **NOT** be available from GM CCA.

It is recommended to only use yellow (long life) Ethylene Glycol anti-freeze/coolant, GM P/N 12378560 (ACDelco 10-5034), in the MD LCF diesel engines.

Only this product has been certified as compatible with the original long life green diesel coolant. This coolant should be used for topping off or complete system refills.

Parts Information

Description	Part Number
COOLANT, ENG ANTIFREEZE 1 GAL	12378560

Version	1
Modified	

GM bulletins are intended for use by professional technicians, NOT a "do-it-yourselfer". They are written to inform these technicians of conditions that may occur on some vehicles, or to provide information that could assist in the proper service of a vehicle. Properly trained technicians have the equipment, tools, safety instructions, and know-how to do a job properly and safely. If a condition is described, DO NOT assume that the bulletin applies to your vehicle, or that your vehicle will have that condition. See your GM dealer for information on whether your vehicle may benefit from the information.
