AIR SPRING SHIELD

SUBJECT VEHICLES: 06MY-17MY Conventional Trucks equipped with a Comfort Ride rear air suspension

Note: This tech tip is provided as technical information and is not authorization for a warrantable repair.

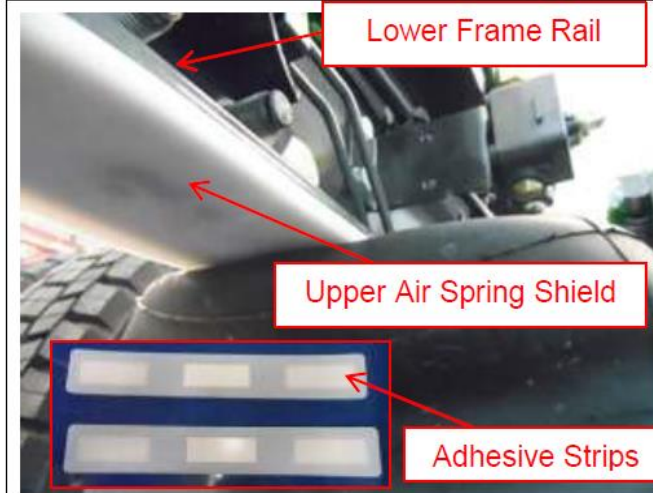

DESCRIPTION OF CONDITION

Severe chafing between the rear air spring and frame rail resulting in failure of the air spring.

DESCRIPTION OF REPAIR PROCEDURE

HINO Part Number	Part name	Quantity
S48CU-E0010	Upper Air Spring Shield	2 Per Vehicle

An upper air spring shield is available to provide additional protection against chafing between the frame and air spring. The upper air spring shield will be positioned between the vehicle frame rail and the air spring upper mount.
