Subject: **Field Service Campaign 16M3**
GHG17 DD Platform Model Year 2016 Motor Control Module (MCM) Replacement

Detroit Diesel Corporation (DDC) has determined that some certified Model Year 2016 GHG17 DD platform engines will require replacement of the Motor Control Module (MCM) due to a manufacturing issue with the MCM circuit board. Any model year 2016 engine manufactured between October 27, 2015, and November 12, 2015, and running a suspect MCM will need the MCM replaced. Replacing the MCM will prevent performance issues that may result in customer dissatisfaction.

Records available to us indicate that your vehicle has one of the eligible engines. Instructions for this Field Action have been sent to your local Detroit Diesel Authorized Repair Facility and the labor time required to perform this software update is approximately **2.4** hours.

Please contact a Detroit Diesel Authorized Repair Facility to arrange to have the Field Action performed. To locate an authorized facility, search online at www.detroitdiesel.com/locations/default.aspx.

This service will be completed for you at no charge, prior to **December 7, 2017**, under the provisions of this notice.

We are sorry to cause you this inconvenience; however, we have taken this action in the interest of your continued satisfaction with our products.
