**Winter tires available for Audi vehicles may have a maximum speed rating that is lower than the potential maximum speed of the vehicle. Never drive Audi vehicles at speeds that exceed the maximum speed rating of the tires with which the vehicles are equipped. Always obey posted speed limits.**

**A NOTE ABOUT HIGH PERFORMANCE TIRES:** These tires are designed for optimum performance and handling in warm climates. They are not suitable for cold, snowy, or icy weather conditions. If you drive under those circumstances, you should equip your vehicle with all-season or winter tires, because these tires offer better traction under those conditions. We suggest you use the recommended winter or all-season tires specified for your car. High-performance tires also have a lower aspect ratio that aid performance and handling; however, in order to avoid tire, rim or vehicle damage, you must regularly check the inflation pressure and maintain proper pressure levels as recommended in your owner's manual. Please also remember in making your selection that, while these tires deliver responsible handling, they may ride less comfortably and make more noise than other choices. Finally, these tires may wear more quickly than other choices. For further information on all these topics, please consult the owner's manual, your local authorized Audi dealer, or call 1-800-FOR-AUDI.
