## **Service Information**

In the "Filter" box type "fix" this will reduce the selections to choose from. Find and double click on "FIX: Distance covered since last mileage- dependent inspection" and "FIX: Time since last timedependent inspecting". Under the "Entry" header click the box next to the current value, set the entry to 0 for both adaptions. After changing values to 0 you may need to click out of the entry box to have the "Apply" button light up. Click "Apply".

7 - Dash Board (UDS / ISOTP / 5C5920970F / 0103 / H23 / EV_KombiUDSMM9R	0 / A04712) Adaptation		
Adaptation/parameter	Current value	Entry	Unit
Fix: Max. distance until next mileage-related inspection			
FIX: Maximum time until next time-dependent inspection			
<ul> <li>FIX: Distance covered since last mileage-dependent inspection</li> </ul>			
	10,300	0	km
<ul> <li>FIX: Time since last time-dependent inspection</li> </ul>			
	310	D	
FIX: Reset value for next mileage-dependent inspection			
FIX: Reset value for next mileage-dependent inspections			
iter: fix			

There should be at least one POP up window. Click the "Yes" button.

Confirm the "Current value" has saved to 0.
