Date: March 12, 2010

2010-2016 Eos, Golf, GTI, Jetta, **Tiguan**, 2012-2017 Passat,
2011-2017 CC – No Communication with the J519 Vehicle
Electrical System Control Module/Body Control Module

November 11, 2016: Update to Model Applicability.

If no communication can be established to the Vehicle electrical system control module J519 (address word 09) in Guided Fault Finding or Vehicle Self Diagnosis, it may be necessary to cycle door locks. It is recommended to cycle both the remote locks and the driver's door lock switch when attempting to communicate with the module using the scan tool. Ensure all vehicle doors are unlocked before communication is retried.
