

No.: 16 CSA-9
May 19, 2016

TO: Service Locations

FROM: Service Systems Development

SUBJECT: DDEC Reports 8.07

SUBJECT DETAIL

Detroit™ is pleased to announce the release of DDEC Reports 8.07. This version is compatible with all Detroit engine platforms, including GHG17. DDEC Reports 8.07 is now available to download and install from DDCSN.

Featured Enhancements:

- Includes CPC3Evo Support
 - o Support for connection on Chassis CAN at 500k baud rate
 - o All features now fully supported (e.g., extraction, open file dialog, and identification)
- Includes CPC4 R38 Software Support
- Quicker ECU detection and connection
- Life To Date “Total Time” switched to use an unadjusted value for ECU software versions that support the new value
- Clarified terminology of parameters screen to explicitly specify “working” PTO Idle

UPDATE INSTRUCTIONS

To download DDEC Reports 8.07 and view the new improvements presentation, go to <http://ddcsn-ddc.freightliner.com> and navigate to: Tools, Electronics, Electronic Tools Updates, and DDEC Reports.
