Torrance, CA 90501
(310) 468-4000

To: All Cold Climate States Toyota Dealer Principals, Service Manager, and Parts Managers

Subject: Limited Service Campaign (LSC) E0D
2005 through 2008 Model Year Tacoma Vehicles
Corrosion-Resistant Compound (CRC) Application

Toyota will initiate a Limited Service Campaign (LSC E0D) to inspect and, based upon Toyota's inspection criteria, apply Corrosion-Resistant Compounds (CRC) to key areas of the frame assembly of certain 2005-2008 model year Tacoma vehicles without significant rust perforation until **March 31, 2016**. This campaign covers vehicles currently registered in the following cold climate states and the District of Columbia (D.C.) (together, "Cold Climate States"): **CT, DE, IL, IN, KY, MA, MD, ME, MI, MN, NH, NJ, NY, OH, PA, RI, VA, VT, WI & WV.**

E0D will be rolled out on a state-by-state basis, with the first states beginning in early May, 2014.

Condition

- Toyota has received reports that certain 2005 through 2008 model year Tacoma vehicles operated in specific cold climate areas (Cold Climate States) with high road salt usage may exhibit more-than-normal corrosion to the vehicle's frame.
- Toyota investigated these reports and determined that the frames in some vehicles may not have corrosion-resistant protection sufficient for use in these areas.
- This combined with prolonged exposure to road salts and other environmental factors, may contribute to the development of more-than-normal rust in the frame of some vehicles.
- This condition is unrelated to and separate from normal surface rust which is commonly found on metallic surfaces after some years of usage and/or exposure to the environment.

Limited Service Campaign (LSC) Remedy

Over the next few months, owners of the covered vehicles will receive a notification requesting them to bring their vehicles to an authorized participating Toyota dealership in the Cold Climate States. The dealership will inspect the condition of the vehicle's frame. Based upon the results of the inspection, the dealership will do one of the following:

- If significant rust perforation is **not** found, the dealer will apply Corrosion-Resistant Compounds (CRC) to key areas of the vehicle's frame at **no charge** to the owner.
- If significant rust perforation is found, the dealer will replace the vehicle's frame at **no charge** to the owner.

Customers will have until **March 31, 2016**, to have the inspection of the vehicle's frame and the CRC application completed. If before the **March 31, 2016**, expiration date an authorized Toyota dealer (in a Cold Climate State) confirms that the vehicle's frame has significant rust perforation, the appropriate repairs must be completed within three months of the inspection date*. Please schedule all inspection and CRC appointments well in advance of the **March 31, 2016**, expiration date to ensure that your dealership has sufficient time to complete this Limited Service Campaign.

Please note: All vehicles must have the campaign completed by the deadlines outlined above.

*Due to facility and staffing challenges when scheduling and performing frame replacements and the production and shipping of the frames and associated parts

1. **Owner Notification**

The owner notification will commence approximately 1 – 2 weeks after your state has been launched.

Phase	Region	States	Dealer Date
1	Boston	Main, Massachusetts, New Hampshire, Vermont, Rhode Island	May 8, 2014
2	Cincinnati	Kentucky, Michigan, Ohio	June 23, 2014
3	Chicago	Illinois, Indiana, Minnesota, Wisconsin	August 22, 2014
4	New York	Connecticut, New Jersey, New York	September 17, 2014
5	CAT	Delaware, Maryland (D.C.), Pennsylvania, Virginia, West Virginia	November 10, 2014

Toyota makes significant effort to obtain current customer name and address information from each state through industry resources when mailing owner letters. In the event your dealership receives a notice for a vehicle that was sold prior to the LSC announcement, it is the dealership's responsibility to forward the owner letter to the customer who purchased the vehicle.

Please note that only owners of the covered vehicles will be notified. If you are contacted by an owner who has not yet received a notification, please **verify eligibility by confirming through TIS prior to performing repairs**. Dealers should perform the repair as outlined in the Technical Instructions found on TIS. VINs will be loaded simultaneously with the launch of each state.

2. **Pre-Owned Vehicles in Dealership Inventory (In-Stock Vehicles)**

To ensure customer satisfaction Toyota requests that dealers conduct the LSC remedy on any used vehicles currently in dealer inventory that are covered by this LSC prior to customer delivery

3. **Dealer/Owner Lists**

Summary Reports containing the **number** of covered vehicles in your dealership's Primary Marketing Area (PMA) have been enclosed in the dealer package. Based upon our records, a dealership which does not have a covered vehicle in their PMA will receive a report indicating so.

Only vehicles currently registered in the "Cold Climate States" are covered under LSC E0D (LSC expiration date **Mar 31, 2016**)
Cold Climate States: CT, DE, IL, IN, KY, MA, MD, ME, MI, MN, NH, NJ, NY, OH, PA, RI, VA, VT, WI, WV and also includes the District of Columbia.

4. Number and Identification of Covered Vehicles

There are approximately **160,000** Tacoma (certain 2005 – 2008 model year) vehicles covered by LSC E0D.

Please note that only owners of the covered vehicles registered in that specific state will be notified. VINs registered within that specific state will be loaded simultaneously on TIS and Dealer Daily. If a dealer is contacted by an owner who has not yet received the notification, ***please verify coverage by confirming through TIS.*** Dealers should perform the procedure as outlined in the Technical Instructions located on TIS. ***Not all vehicles in the VIN range are covered by this LSC.***

Please note that only owners of the covered vehicles registered in that specific state will be notified. VINs registered within that specific state will be loaded simultaneously on TIS and Dealer Daily. If a dealer is contacted by an owner who has not yet received the notification, **please verify coverage by confirming through TIS.** Dealers should perform the procedure as outlined in the Technical Instructions located on TIS. **Not all vehicles in the VIN range are covered by this LSC.**

Only vehicles currently registered in the "Cold Climate States" are covered under LSC E0D (LSC expiration date **Mar 31, 2016**)
Cold Climate States: CT, DE, IL, IN, KY, MA, MD, ME, MI, MN, NH, NJ, NY, OH, PA, RI, VA, VT, WI, WV and also includes the District of Columbia.

5. Remedy Procedure

- If the frame passes Toyota's inspection criteria, refer to the CRC application Technical Instructions located on the C.L.E.A.N. Dealer website – <http://cleandealer.com>. Follow the **CRC Application** Support link located in the left bottom corner of the C.L.E.A.N Dealer webpage. Accessing and using this website will be similar to the procedure used in previous CRC campaigns. If you are having difficulty accessing or using the website, please contact the Environmental Health and Safety (EH&S) Hotline at (877) 572-4347.
- If the frame does not pass Toyota's inspection criteria, please refer to the supplement frame replacement Technical Instructions located on TIS.
- Conduct all applicable, non-completed Safety Recall and Service Campaigns on the vehicle during the time of appointment.

6. Parts and Material Ordering

Corrosion-Resistant Compound (CRC) and Support Material Ordering:

Please refer to the technical instructions located on the C.L.E.A.N. Dealer website (<http://cleandealer.com>) for part number and quantity information.

- Please note that only dealers in the Cold Climate States will be able to order and receive CRC kits.
- Verify vehicle eligibility by confirming through TIS prior to performing the repair.
- Dealers that conduct LSC E0D on vehicles not covered under this program or in a state other than the Cold Climate States will not receive reimbursement.

The CRC application will entail sealing the frame with two different products. The Parker 712AM, a paraffin wax based product, will be applied inside the frame. Noxudol 300S will be applied to the external surfaces of the frame. Do not use the Noxudol® name and trademarks without the prior written consent of Soken Trade Inc. and Toyota Motor Sales, U.S.A., Inc.

Kits will be placed on Manual Allocation Control (MAC). While the CRC kits are on MAC, a representative from TMS Quality Compliance will review each order and, **if necessary**, contact the dealership's Parts Manager to verify the necessity of the order. This will ensure an adequate and balanced CRC inventory.

Do not order these kits if your dealership is not located in one of the covered & launched states.

If there are **special** circumstances where a dealer is having difficulty receiving its order, dealership associates may leave a voice message at: (310) 468-5516 or 1-800-233-3718, option 4, to research the order. The associate should provide the following information to expedite research of the order status:

- Dealer Information. (Dealer Code, Contact Name, Telephone Number)
- Order Reference Number.
- Customer Name and Vehicle 17-digit VIN.

Frame Replacement Parts Ordering (where applicable):

To assist dealers in determining the correct part number(s) to order, a website has been set up to look up part numbers by VIN.

- Go to <http://toyota-frame-parts-lookup.imagespm.info>
- **When first logging in, enter your dealer code and the default password; xxxxx.** Upon logging in, the website will ask for you to reset the password and provide an email address.

Note:

- *This is a generic website that covers all campaigns where frame replacement may be necessary.*
- *Your dealership may have previously used this website under LSC D0D and may have updated the password.*
- Select the appropriate campaign.
- Enter the VIN and the correct part numbers to order will be displayed.
- Order parts through the Dealer Daily Parts System.
- ETAs for the parts will be available via the normal system.

The website is for part(s) application reference only and will not order the part, nor will it confirm campaign applicability or completion status.

Only vehicles currently registered in the "Cold Climate States" are covered under LSC E0D (LSC expiration date **Mar 31, 2016**)
Cold Climate States: CT, DE, IL, IN, KY, MA, MD, ME, MI, MN, NH, NJ, NY, OH, PA, RI, VA, VT, WI, WV and also includes the District of Columbia.

7. Tools and Equipment

Please refer to the appropriate Technical Instructions for a list of tools and equipment.

- CRC Application Stall Set Up TI
- CRC Application TI
- Spray Gun Maintenance / Storage TI
- Supplemental Frame Replacement TI

8. Before You Start

Carefully read the Campaign Dealer Information Packet (*provided during LSC D0D*) and supporting material even if your dealership has previously performed CRC application campaigns.

Before starting E0D all dealer associates involved with this campaign must be properly trained using the Dealer Information Packet, Quick Reference Guides and Technical Instructions. Training should be documented in the associate training log.

9. Warranty Processor Instructions

Only vehicles currently registered in the "Cold Climate States" are covered under LSC E0D (LSC expiration date **Mar 31, 2016**)
Cold Climate States: CT, DE, IL, IN, KY, MA, MD, ME, MI, MN, NH, NJ, NY, OH, PA, RI, VA, VT, WI, WV and also includes the District of Columbia.

(Warranty Processor Instructions CONTINUED . . .)

(Warranty Processor Instructions CONTINUED ...)

Allowable Sublet for Limited Service Campaign E0D – CRC Application

- **Rental Vehicle:** Use "RT" sublet type for Op. Code 3605G2, 3605G3, 3605GM, and 3605GN. During the CRC application, customers' rental car through the Toyota Rent-A-Car (TRAC) Program is available for a maximum of 2 days. Follow the Toyota Transportation Assistance Program (TTAP) guidelines.
- **Sublet:** The sublet cost for Op. Code 3605G3 and 3605GN (CRC Application by an Outside Repair Shop) should be claimed under sublet type 'YF' using the following formula:

$$= \text{Maximum 3.1 Hours (for CRC Application)} \times \text{Dealer Hourly Rate}$$

(Under this Op. Code dealers are responsible for inspecting, removing rust, and cleaning the frame)

A maximum of \$250 per vehicle may also be claimed under sublet type 'YG' for the cost of transporting vehicles to an Independent or Dealer Body Shop for Op. Code 3605G3 and 3605GN

- **Materials/Supplies:** Use "YA" sublet type for Op. Code 3605G2 and 3605GM. A maximum of \$49/vehicle cost for preparation and application materials/supplies (fire-retardant poly sheeting (tarp), masks, tape, gloves, partitions, waste disposal, etc.) will be accepted.

Allowable Sublet for Limited Service Campaign E0D – Frame Replacement

- **Sublet:** The sublet cost for Frames Replaced at an Independent or Dealer Body Shop should be claimed under sublet type 'YF' using the following formula:

Description	Sublet Amounts
Op. Code 3605GA (2WD)	= Maximum 38.2 hours X Outside Repair Shop Rate
Op. Code 3605GE (2WD)	
Op. Code 3605GX (2WD)	
Op. Code 3605GB (4WD)	= Maximum 39.8 hours X Outside Repair Shop Rate
Op. Code 3605GU (4WD)	
Op. Code 3605GZ (4WD)	

- A maximum of \$250 per vehicle may be claimed under sublet type 'YG' for the cost of transporting vehicles to an Independent or Dealer Body Shop for Op. Code 3605GA, 3605GE, 3605GX, 3605GB, 3605GU, and 3605GZ .

Rental Vehicles:

Non-Rental Vehicles:				
Op. Code	Description	DSPM Authorization	Sublet Amounts	Sublet Type
3605GF	Vehicle Rental 1-30 Days	Not Required	**Follow the Toyota Transportation Assistance Program (TTAP) Guidelines.	RT
3605GG	Vehicle Rental 31-60* Days (For frame replacement)	Required		
3605GH	Vehicle Rental 61-90* Days (For frame replacement)			
3605GV	Vehicle Rental 91-120* Days (For frame replacement)			
3605GW	Vehicle Rental 121-150* Days (For frame replacement)			
3605G1	Vehicle Rental 151-190* Days (For frame replacement)			

*Rental car for frame replacement is up to 7 days. If frame replacement is delayed due to parts availability, additional time, up to a total of 30 days, may be claimed. Additional time, up to a total of 190 days, may be claimed **only** with DSPM advance written authorization.

**As stated in the policy, any special vehicles above the standard rental cost must be approved by the DSPM and should only be given to customers that face extreme hardship with the standard rental vehicle (e.g. the vehicle is used for their livelihood).

(Submit LSC claims following the procedures described in the Toyota Warranty Policy and Procedures Manual.)

Only vehicles currently registered in the "Cold Climate States" are covered under LSC E0D (LSC expiration date Mar 31, 2016)
Cold Climate States: CT, DE, IL, IN, KY, MA, MD, ME, MI, MN, NH, NJ, NY, OH, PA, RI, VA, VT, WI, WV and also includes the District of Columbia .

10. Frame Registration and Credit Program

Toyota understands that this campaign has experienced longer than expected lead times for frame replacement parts. This longer than expected lead time between frame inspection/parts ordering and part arrival could result in a frame repair that is unable to be completed due to various reasons:

- Vehicle totaled or involved in an accident
- Customer sold vehicle (unable to reach new owner)
- Unresponsive customers due to extended delay
- Etc.

Due to these unique circumstances and the fact that frames are *nonreturnable Toyota has setup a frame registration and potential credit program to help assist dealers in these rare cases.

Frame Registration

For obsolete frame registration please provide the following information to your respective regional representative (DSPM/FTS):

- Dealer code
- VIN
- Documentation of why repair cannot be completed
 - **Totaled Vehicle:** Insurance papers for totaled vehicles/carfax report
 - **Private Party Sold Vehicle:** copies of sales paper work (if possible)
 - **Unresponsive Customer:** Provide contact call log/journal.
 - 30 day minimum contact period
 - Must contain 4 different contact attempts on 4 different dates (phone, email, text, etc)
- Frame Part Number
- Frame Pin Stamp #
- Picture of Frame/PIN Stamp #
- Frame Order Reference Number
- Part storage description (ie. outside, warehouse, in shop)

Only vehicles currently registered in the "Cold Climate States" are covered under LSC E0D (LSC expiration date **Mar 31, 2016**)
Cold Climate States: CT, DE, IL, IN, KY, MA, MD, ME, MI, MN, NH, NJ, NY, OH, PA, RI, VA, VT, WI, WV and also includes the District of Columbia.

(Frame Registration and Credit Program Instructions CONTINUED ...)

Toyota will review the documentation upon receipt and register the frame for a 60 day period. This 60 day period will be used to try and find a second use for the frame. It is expected that a second use for a frame will be found for the majority of obsolete frame cases. If Toyota identifies a second use, we will ask the dealers to assist with the following:

- **Selling Dealer:** Toyota will request the dealer in possession of the frame to sell their frame at dealer cost with no markup.
- **Purchasing Dealer:** Dealers purchasing the frame for vehicle repairs should pay selling dealer, at dealer parts cost, for the frame in a timely manner.
- **Frame Transportation:** Toyota will help coordinate the move of the frame using approved logistics carriers.

Frame Credit

If a secondary need for the frame is unable to be identified during the 60 day registration period, Toyota will issue the frame credit opcode and remove the frame from the national frame registry. The frame credit opcode will allow dealers to recover the cost of the frame with no parts markup. To complete the frame credit claim filing process, specific instructions will be provided at the end of the registration period.

- **Required Frame Pin Stamp Return:** All warranty claims for frame credits will require the frame section with the pin stamp to be returned through the PRS system. In order to return the frame pin stamp (serial number) the dealer will need to cut the pin stamp section out of the frame and return it to Toyota.

DO NOT return the entire frame assembly, claims that have the entire frame shipped are subject to warranty claim debit and/or will be held responsible for the extra frame shipment cost.

Failure to return the frame pin stamp will automatically result in claim debit.

11. Campaign Designation Decoder

Only vehicles currently registered in the "Cold Climate States" are covered under LSC E0D (LSC expiration date **Mar 31, 2016**)
Cold Climate States: CT, DE, IL, IN, KY, MA, MD, ME, MI, MN, NH, NJ, NY, OH, PA, RI, VA, VT, WI, WV and also includes the District of Columbia.

12. Repair Quality Confirmation

The repair quality of covered vehicles is extremely important to Toyota. To help ensure that all vehicles have the repair performed correctly, please designate at least one associate (someone other than the individual who performed the repair) to verify the repair quality of every vehicle prior to customer delivery.

13. Media Contacts

If you are a dealership associate and have any questions, please contact your District Service/Parts Manager. ***In the event you are contacted by the News media***, it is imperative that all media contacts (local and national) receive a consistent message. In this regard, all media contacts must be directed to Cindy Knight (310) 468-2170 in Toyota Corporate Communications. (Please do not provide this number to customers)

14. Customer Contacts

A FAQ is attached to help respond to any customer concerns. If the customer has any further questions, they are requested to contact the Toyota Customer Experience Center. The Toyota Customer Experience Center can be reached at 1-888-270-9371 Monday through Friday, 5:00 am to 6:00 pm, or Saturday 7:00 am through 4:00 pm Pacific Time.

As part of our dedication to continuous improvement, changes have been incorporated in the production process to ensure the highest quality products are provided to our customers.

Please review this entire package with your Service and Parts staff to familiarize them with the proper step-by-step procedures required to implement this Limited Service Campaign.

Thank you for your cooperation,
TOYOTA MOTOR SALES, U.S.A., INC.

Only vehicles currently registered in the "Cold Climate States" are covered under LSC E0D (LSC expiration date **Mar 31, 2016**)

Limited Service Campaign E0D - (FAQ)

Certain 2005 through 2008 Toyota Tacoma Vehicles **Currently** Registered in the Cold Climate States
Corrosion-Resistant Compound (CRC) Application to the Vehicle's Frame

Frequently Asked Questions

Published Early May 2014

Q1: What is the condition?

A1: Toyota has received reports that certain 2005 through 2008 model year Tacoma vehicles operated in specific cold climate areas (Cold Climate States) with high road salt usage may exhibit more-than-normal corrosion to the vehicle's frame. Toyota investigated these reports and determined that the frames in some vehicles may not have corrosion-resistant protection sufficient for use in these areas. This, combined with prolonged exposure to road salts and other environmental factors, may contribute to the development of more-than-normal rust in the frame of some vehicles. This condition is unrelated to and separate from normal surface rust which is commonly found on metallic surfaces after some years of usage and/or exposure to the environment.

Q2: What are the "Cold Climate States" with high road salt usage covered by this Limited Service Campaign (LSC)?

A2: The following states and the District of Columbia are referred to as the "Cold Climate States":

CT, DE, IL, IN, KY, MA, MD, ME, MI, MN, NH, NJ, NY, OH, PA, RI, VA, VT, WI, and WV

Q2a: Why are some states contiguous to the Cold Climate States not included?

A2a Only portions of the listed states may exhibit the cold climate and high road salt usage which can cause this condition. To simplify the administration of this campaign and avoid confusion, Toyota has elected to include the entire state rather than a portion.

Q3: Which and how many vehicles are covered by this Campaign?

A3: There are approximately 160,000 Tacoma (2005 - 2008 model year) vehicles currently registered in the Cold Climate States.

Model	Model Year	Production Range	Appx. UIO
Tacoma	2005-2008	Sep. 14, 2004 – May 27, 2008	160,000

Q4: What is Toyota going to do?

A4: In mid-May, 2014, Toyota will send an owner notification by first class mail to owners of vehicles covered by this Limited Service Campaign (LSC).

Any authorized participating Toyota Dealership in the Cold Climate States will inspect the condition of the vehicle's frame. Based upon the results of Toyota's inspection*, if significant rust perforation **is not** found, Toyota will apply Corrosion-Resistant Compounds (CRC) to key areas of your vehicle's frame at **no charge** to you. The CRC application will enhance the corrosion protection of the vehicle's frame.

You must have your vehicle inspected and the CRC application completed by a participating Toyota Dealership located in the Cold Climate States no later than **March 31, 2016**. Please schedule an appointment with an authorized participating Toyota dealer well in advance of the **March 31, 2016**, expiration date to ensure that your dealership has sufficient time to complete this LSC on your vehicle.

If a participating Toyota Dealership, located in the Cold Climate States, confirms that your vehicle's frame has significant rust perforation*, the dealer will provide an appropriate remedy at **no charge** to you. The dealer must determine that the frame has significant rust perforation* by **March 31, 2016** in order for the cost of any necessary repairs to the vehicle's frame be covered by the Campaign (there are no mileage limitations).

* Per Toyota's Inspection Criteria

Q4a: How does Toyota obtain my mailing information?

A4a: Toyota uses an industry provider who works with each state Department of Motor Vehicles (DMV) to receive registration or title information. Please make sure your registration or title information is correct.

Q4b: Do I need my owner letter to have the remedy performed?

A4b: You do not need an owner letter to have this LSC completed; however, to assist the dealer in confirming vehicle eligibility, we request that you present the owner notification at the time of your service appointment.

Toyota will be rolling out LSC EOD state by state. Therefore, we recommend that you wait to receive the owner letter to ensure that dealerships in your state have received any necessary regulatory approvals and are ready to offer this campaign. You may also contact your local Toyota dealer for additional information.

Q4c: Once the CRC application is complete, will Toyota extend the warranty on the vehicle's frame?

A4c: The CRC application is designed to enhance the corrosion resistant properties of the vehicle's frame. Additional warranty enhancements are not offered under this campaign.

Q4d: What if the vehicle's frame already exhibits excessive corrosion? Will Toyota perform the CRC application or will the vehicle be repaired?

A4d: Toyota will inspect the vehicle's frame. If the frame passes Toyota's Inspection Criteria, the CRCs will be applied to the frame. If the frame exhibits significant rust perforation (based upon Toyota's inspection criteria), Toyota will replace the vehicle's frame. The work will be performed at **no charge** to the owner of the covered vehicles for a limited time (see A4).

Q5: Why is Toyota only offering the CRC application to customers whose vehicles are currently registered in the Cold Climate States?

A5: Toyota is applying the CRC in areas where vehicles may experience or have experienced prolonged exposure to severe cold climates with high road salt use.

Q6: What should I do?

A6: Owners of vehicles covered by this LSC should bring their vehicle to a participating Toyota dealer located in one of the Cold Climate States for which authorization to perform the CRC application has been obtained. Customers may also contact their local Toyota dealer for additional information.

Q7: How long will the repair take?

A7: The inspection and CRC application will take approximately 6 hours. However, depending upon the dealer's work schedule, it may be necessary to make the vehicle available for a longer period of time.

Note: A rental vehicle will be provided while your vehicle is being repaired.

Q7a: Will Toyota provide a rental vehicle until the vehicle is repaired?

A7a: The Toyota dealer will arrange a complimentary loaner vehicle (upon proof of adequate insurance) for your use at no charge for up to 2 days during the repair (extra time may be provided if additional repairs are needed for this condition).

Q7b: What if the vehicle's frame fails Toyota's inspection criteria? How long will the repair take?

A7b: The frame replacement will take approximately 42 hours. However, depending upon the dealer's work schedule, it may be necessary to make the vehicle available for a longer period of time.

Q8: What if I have previously paid for repairs related to this campaign?

A8: Reimbursement consideration instructions will be provided in the remedy owner letter.

Please note the dealer will need to perform this LSC before reimbursement consideration requests can be processed.

Q9: *What if I have additional questions or concerns?*

A9: Customer satisfaction is very important to Toyota. If you have additional questions or concerns, please contact the Toyota Customer Experience Center at 1-888-270-9371 Monday through Friday, 5:00 am to 6:00 pm, or Saturday 7:00 am through 4:00 pm Pacific Time.
