Subject: Emissions Recall GOM (Interim G1M) – Interim - Certain 2015 – 2016 Model Year Prius V
- Emission Control Information Label
Attachments: GOM-Dealer Package-published 4.27.16.pdf

Toyota will file a Voluntary Emission Recall Report with the U.S. Environmental Protection Agency (EPA) informing the agency of our intent to conduct a voluntary Emissions Recall on certain 2015 – 2016 model year Prius V vehicles.

Condition

The involved vehicles may not have had the required Emission Control Information Label applied to the underside of the engine hood during production. The involved vehicles **WERE ONLY DISTRIBUTED** to Guam, Hawaii, Puerto Rico, and Saipan.

Remedy

Toyota is currently preparing the remedy. Once preparations are complete, Toyota will notify dealers prior to sending the owner notification letters. The remedy will consist of applying the Emission Control Information Label to the underside of the engine hood.

Covered Vehicles

There are approximately 330 vehicles covered by this Emissions Recall. The involved vehicles **WERE ONLY DISTRIBUTED** to Hawaii, Guam, Puerto Rico, and Saipan.

Model Year	UIO	Production Period
2015 - 2016	330	Early November, 2014 – Early April, 2016

New Vehicles in Dealer Inventory

Do not deliver any new vehicles in dealer inventory that are covered by an Emissions Recall unless the vehicle has been remedied.

Pre-Owned Vehicles in Dealer Inventory

Dealers should not deliver any pre-owned vehicles in dealer inventory that are covered by an Emissions Recall unless the vehicle has been remedied.

Also, as a reminder, Toyota Certified Used Vehicle (TCUV) policy prohibits the certification of any vehicle with an outstanding Special Service Campaign or Recall. Thus, no affected units should be sold or delivered as a TCUV until the Recall has been completed on that vehicle.

Dealers will be notified on April 27, 2016 at approximately 11:45 AM Pacific.
