

Service Bulletin

File in Section: 06 - Engine
 Bulletin No.: 15-06-03-002C
 Date: October, 2016

INFORMATION

Subject: Original Equipment Batteries Part Number and ACDelco Replacement Battery Approved Warranty Part Numbers

Models: 2015-2017 GM Passenger Cars and Light Duty Trucks

Attention: This Bulletin also applies to any of the above models that may be Export from North America vehicles.

This Bulletin has been revised to add the 2017 Model Year, remove the 2014 Model Year and update the battery information in the table below. Please discard Corporate Bulletin Number 15-06-03-002B.

Correct battery cold cranking amperage (CCA) ratings and type are critical for proper test results when using the EL-50313. Access to the battery specification label, which contains the OEM part number and CCA rating and type, may be difficult without component removal. Refer to the table below for the original equipment ratings and part numbers used to set up a proper battery test. There has been some confusion as to the correct ACDelco battery warranty replacement. Refer to the table below for the correct battery warranty replacement.

The correct ACDelco battery warranty replacement in the catalog is designated by the "Original Equipment Replacement" note in the description field.

When testing batteries, you must:

- Select "Out of Vehicle" when setting up the test.
- Disconnect both of the battery cables from the battery. The battery does not need to be removed from the vehicle.
- Connect the EL-50313 directly to the battery terminal posts.
- Select the correct CCA. The battery should be close to room temperature and not frozen.
- Select the proper battery type; Flooded, AGM, or Stop/Start AGM (Auxiliary Battery). Spiral AGM is not used by GM.

Note: Select the proper battery type to prevent battery damage and to ensure correct test results.

GM bulletins are intended for use by professional technicians, NOT a "do-it-yourselfer". They are written to inform these technicians of conditions that may occur on some vehicles, or to provide information that could assist in the proper service of a vehicle. Properly trained technicians have the equipment, tools, safety instructions, and know-how to do a job properly and safely. If a condition is described, DO NOT assume that the bulletin applies to your vehicle, or that your vehicle will have that condition. See your GM dealer for information on whether your vehicle may benefit from the information.
