Attachments	
File	Description
Peeling clearcoat.jpg	Clearcoat peeling
Clearcoat bubbles.JPG	Clearcoat bubbling
Clearcoat flaking.jpg	Clearcoat flaking

Cause:

Improper adhesion of clearcoat

Remedy:

Refinish affected areas only according to WIS and approved paint manufacturer instructions.

For PTSS and warranty claim information, please see below:

1. Production date after Feb 2015 - requires normal PTSS case with photos of affected areas attached
2. Production date before Feb 2015 - no case is required

NOTE: If the labor required is greater than 30hrs - Warranty policy requires an Information Only PTSS case with photos of affected areas, regardless of production date

Please also refer to the Warranty Policy and Procedures manual, section 10.12

Please use damage code 98081L6

Symptoms
Overall vehicle / Paint/corrosion / Paintwork Fault / Poor grip
Overall vehicle / Paint/corrosion / Paint damage / Swelling
