Attention: The Model information above is for informational purposes only, the

determination of coverage should always be made on a VIN-specific basis using the DCSnet Warranty Inquiry application.

Please refer to the “Eligible Vehicles” section of this bulletin for further details.

INFORMATION

On the above-referenced vehicles, BMW of North America, LLC (“BMW NA”) is extending the limited warranty for the

- **In-tank fuel delivery module (pump) to 10 years without mileage limitation as determined by the vehicle’s original in-service date.**

- **Item #1: This “component-specific” limited warranty extension** applies to defects in materials or workmanship.
- This coverage is subject to the same vehicle eligibility requirements, limitations, and exclusions that apply to the BMW New Vehicle Limited Warranty for Passenger Cars and Light Trucks.

This bulletin is notice of a “limited warranty extension.” This is NOT a notice of a Recall or Service Action.

There is no immediate repair required unless the BMW vehicle is currently experiencing this problem.

Customer Notification Letter – VIN and Component-specific Warranty Extension

Even though this is **NOT** a Recall, BMW NA sent VIN-specific customer notification letters the week of July 13, 2015 in a “phased” release. A sample letter is attached.

ELIGIBLE VEHICLES

To assist you in identifying the “eligible vehicles” that have this extended limited warranty coverage, the DCSnet Warranty Vehicle Inquiry has been updated with the VIN-specific “Vehicle Comment” shown below:

BMW NA has extended the limited warranty for the in-tank fuel delivery module (pump) on this vehicle to 10 years without mileage limitation as determined from the original in-service date, subject to the applicable vehicle and coverage eligibility requirements, exclusions and limitations that apply to the BMW New Vehicle Limited Warranty for Passenger Cars and Light Trucks. Please see [SI B01 05 15](#).

Warning: Before performing and submitting a repair under this extended limited warranty (ELW), always do a DCSnet Warranty inquiry to confirm that the vehicle has the above “Notice of Limited Warranty Extension” in the Vehicle Comment section.

The “model year” production start (SOP) and end date (EOP) for a specific “model variant” within a “Series” will vary, please do not use a vehicle’s production date as the sole deterrent for ELW coverage eligibility.

If you have ELW eligibility and/or coverage question, please send an email with the VIN(s) and your question to the appropriate regional “questions” e-mail address prior to performing any repairs.

PARTS INFORMATION

Please refer to the Electronic Parts Catalog (EPC/ETK), using the customer’s VIN to locate the replacement part numbers.

Note: Only order the necessary quantity of parts you center needs to repair customer vehicles which have a confirmed failure.

Please do refer to ETK and the repair instructions for information about onetime use fastener and/or other screws, gaskets and seals that must also be replaced while performing.

WARRANTY INFORMATION

The in-tank fuel delivery module (pump) limited warranty extension to 10 years without mileage limitation applies to “eligible US-specification BMW vehicles” that are registered, operated and have their covered repair performed by an authorized BMW center in the United States (including Puerto Rico).

This coverage supersedes the coverage that is provided under the BMW Certified Pre-Owned Program or any BMW Group Vehicle Service Contract that applies to the vehicle.

Should the in-tank fuel delivery module fail again, this component is covered by the remaining portion of the extended limited warranty coverage period.

The existing limited warranty coverage for all other parts **has not** changed.

Non-Qualifying Repairs

Non-US specification vehicles, ineligible vehicles, eligible vehicles operated and repaired outside the United States and Puerto Rico and/or the diagnosis and repair of other unrelated issues are not covered under the terms of this limited warranty extension.

Previous Customer-pay Repairs – Limited Warranty Extension Reimbursement

BMW of North America, LLC ("BMW NA") will provide reimbursement for "qualifying customer-pay repairs" that were performed on an eligible vehicle **prior** to the release of this component-specific limited warranty extension.

Customer-pay repairs are subject to the applicable vehicle and coverage eligibility requirements, exclusions and limitations that apply to the BMW New Vehicle Limited Warranty for Passenger Cars and Light Trucks.

Repairs that do not Qualify for Reimbursement

Repairs performed on ineligible vehicles, eligible vehicles operated and repaired outside the United States and Puerto Rico and/or the diagnosis and repair of other unrelated issues. This exclusion applies to repairs, including consequential, that were performed using non-genuine BMW parts and/or used passenger car or light truck parts.

Requesting Reimbursement for a Previous Repair that Qualifies

For a customer to request reimbursement for a “qualifying customer-pay repair” performed either by an authorized BMW center or independent repair shop located in the United States (including Puerto Rico), please have him/her submit his/her reimbursement request “online” at www.BMW-RP.com under the following reference:

- **B-ELWR 2015 In-tank Fuel Pump**

Reimbursement Request Procedure

The online process is initiated by attaching/sending “PDF files” of the supporting documentation for the “prior repair.”

The website, the customer-pay reimbursement attachment to this bulletin and the soon to be mailed customer letters all provide information as to “what” documentation is needed to be supplied to support a prior repair.

Alternative methods to request reimbursement, either through the mail or by fax, are also provided.
