

Maserati Administrative Bulletin

Date: September 13th, 2016
Bulletin No.: MAB_178B
Supersedes: MAB_178A
Section: Levante BOL Policy
and Procedures

MASERATI

Model Type: Levante (M161)

Model Year: 2017

Subject: Market Introduction of Levante (M161) for Blue On-Line Reporting Requirements.

Please be aware that Maserati North America, Inc. requires that a Blue On-Line (BOL) report be submitted every time a MY17 Maserati Levante (M161) enters the workshop for service under the following BOL categories:

1. **Support Request** – If there is a technical support request for the Levante (M161) then it is required to open a BOL under “Support Request”.
2. **For Factory Information** – If the vehicle has been repaired WITHOUT the assistance of Maserati Technical Support, then it is still required to open a BOL under “For Factory Information”.

NOTE: If a BOL under the category “Support Request” already exists, then it is NOT necessary to open a BOL under the category “For Factory Information”.

BOL's are required from the **beginning of arrival at your dealership until March 31st, 2017.**

The purpose is to report all anomalies as quickly as possible to the factory for immediate resolution and rapid quality improvement early in the introduction of a new model.
