No.	MFR Communication ID	MFR Communication Date	Make	Model	Model Year	Concise Summary (2000 character limit)
	S16YW	09/09/2016	Blue Bird	Vision & All American School Bus	2016-2017	Certain 2016 through 2017 model year Blue Bird Vision and All American School Buses equipped with optional Side Emergency Doors manufactured from October 21, 2014, through July 14, 2016, will require inspection of the heater pipe installation at the side emergency door. On the subject buses, the floor covering material may not be trimmed properly forcing the heater pipe to be too high raising the temperature of the heater pipe cover. To correct this it is necessary to inspect for proper installation and trim the rubber floor covering, if needed. Time allowed for inspection and correction in each bus is 0.5 hours.
