Concern:

Hour meter not visable on display panel on generator icon

Remedy :

1. Program MY RV display panel with instructions attached

Configuring the Generator Genie Hour Meter

- Press "Home" button on the OCTP.
- Select "MyRV Control Panel".
- Press and release the yellow MyRV icon in upper left hand corner of the screen 5 times.
- Enter Pin (Last four digits of Software Version number located in lower right hand corner above the onscreen keyboard).
- Select "Done".
- Select "Configurator" app.
- Select "Show All Devices".
- Select "By Product/Controller".
- Select "Generator".
- Select "Hour Meter".
- Select "Rename".
- Select "UNKOWN" under "Group" and choose "Hour Meter".
- Select "UNKOWN" under "Name" and choose "Generator".
- Select "Send".
- Select the "home" icon at the bottom of the screen.
- The home screen will now appear.
- Select "MyRV Control Panel".
- Choose the Generator App.
- The generator hour meter will now appear in the center of the screen above the generator graphic.
