MERITOR WABCO REMANUFACTURED AIR DRYERS

A genuine product from two trusted sources. Meritor and Meritor WABCO are two names you and your customers trust. Only Meritor offers Meritor WABCO remanufactured System Saver air dryers for original specification quality and the performance your customers demand.

All Meritor WABCO remanufactured air dryers are built with genuine Meritor WABCO components utilizing remanufacturing processes and validation testing that ensure OE quality, durability and performance.

Meritor WABCO genuine remanufactured air dryers come standard with top of the line Meritor WABCO cartridges; 100% of sealing components are new and specified to OE quality. Stringent end-of-line testing assures the quality that comes with the Meritor WABCO name.

Don't settle for anything less than genuine. Only Meritor WABCO can build and rebuild System Saver air dryers that deliver original quality performance. And only Meritor can bring them to the marketplace.

Meritor WABCO Remanufactured Air Dryers.

- Remanufactured using genuine Meritor WABCO cores and production components
- Remanufactured by WABCO to their exacting standards
- End-of-line performance testing as on original product
- Same 1-year warranty as new product offering
- All remanufactured Meritor WABCO Air Dryers come with a genuine Meritor WABCO standard or coalescing air dryer cartridge

MERITOR WABCO
Safety Strong. Efficiency Smart.

Quick Reference

Understanding Meritor WABCO Air Dryer Descriptions	
Standard Cartridge	Air dryer cartridge containing desiccant materials of the highest quality to absorb more moisture from your air system before it can flow down-stream.
Coalescing Cartridge	Air dryer cartridge containing desiccant materials of the highest quality to absorb more moisture from the air system before it can flow down-stream; also contains additional oil collecting material to prevent oil from contaminating the air system. Increasingly becoming the primary cartridge used in heavy equipment today.
SS	System Saver
SS1200 E	External econ line
SS1200 U	Uses the discharge line for unloading the compressor
SS1200 P	Uses an external purge tank
SS1200 UP	Uses the discharge line for unloading the compressor and has an external purge tank
SS1200 Plus	Designed specifically for the North American braking system market. A high-capacity air dryer that uses internal air for regeneration. Contains a spin on/off air dryer cartridge for easier scheduled preventive maintenance. May or may not contain a governor.
TWIN	A sequential two-cartridge system allowing one side to regenerate while the other side continues to dry air. Designed for compressors that operate almost continuously and demand high volumes of dry air.
SS1800	Provides increased drying volume for heavy-duty applications. Where space allows, the taller MW SS1800 air dryer cartridges – R950048, R950069 – can be used on SS1200 air dryers to provide increased drying capacity for normal volume applications.
