

ATTN: FLORIDA Dealer personnel,

In an effort to ensure parts are available to support the Inflater Collection Activity happening in your state, Nissan has developed an Automatic Parts Shipment plan based on a percentage of the affected customers that have visited the dealership in the last year. Please see the attached PM651 – Automatic Parts Shipment allocation. Additional parts may be ordered via the new DCS Campaign Restricted Parts Ordering tool. As a reminder, this activity is a state-specific activity which is limited to vehicles currently registered and located in the state of Florida.
