CNG-Powered Saf-T-Liner C2

Cummins 6.7L ISB G

We are pleased to announce the immediate availability of a CNG-powered **Saf-T-Liner C2** chassis. This chassis will be powered by a dedicated **Cummins** 6.7L ISB G CNG engine, and will be **available** with **200**, **220** or **240** horsepower ratings.

The fuel cell will consist of **3600** PSI aluminum/carbon fiber fuel tanks mounted in caged assemblies; (2) between the rails, rear of rear axle and (1) mounted outboard of the frame, each side, forward of the rear axle. A fuel capacity of 45 – 60 (DGE) diesel gallon equivalent will be wheel base dependent.

A center right hand *fast-fill* fuel receptacle will be **standard**. Optional fill locations will be available for the front/rear corners and the left side center of the vehicle. The right hand standard fill will allow for fast fill or time-fill capability, while the optional fills will allow for *time-fill* capability.

The CNG-powered C2 chassis will be **available** for the **251T** (219" wb) through **341T** (279" wb) models. A/C will be allowed, however, you will be required to use a roof mounted condenser.

Below is a summary of changes that will take effect in ASIST.

Feature	Description	Action
D133703000	Logo-Saf-T-Liner C2 CNG	Released
D138100001	Label-Manual Shut-off Valve CNG	Released
D138300000	Label-CNG Tank Inspection Log	Released
D200600005	Body Adjustment-FTL, CNG RS Fuel Fill Location	Released
D200600006	Body Adjustment-FTL, CNG RS/LS Center	Released
D200600007	Body Adjustment-FTL, CNG RS/LS/RS Front	Released
D200600008	Body Adjustment-FTL, CNG RS/LS/RS Rear	Released
D421901000	Elec-Fuel Interlock, CNG RS	Released
D421902000	Elec-Fuel Interlock, CNG RS/LS	Released
D421903000	Elec-Fuel Interlock CNG RS/LS/RS Front	Released
D421904000	Elec-Fuel Interlock CNG RS/LS/RS Rear	Released

D502605000	Bumper-Rear 2 Braces No Exhaust Hole	Released
D502605003	Bumper-Rear 4 Braces No Exhaust Hole	Released
D505500003	Decal-"CNG Only" RS	Released
D505500004	Decal-"CNG Only" RS/LS	Released
