ACCUSTYLE MIRRORS

Minotour

Rosco Mirrors has improved the design and weight of their rearview mirrors for Minotours. There are minimal physical appearance changes, and no performance changes. The Accustyle model offers less vibration, due to the lighter weight.

These are the same mirrors that are available for the EFX model bus.

Effective June-17-2016, the old Eurostyle model mirrors will be discontinued and replaced with the newer Accustyle model mirrors.

Existing orders will be built with the Eurostyle mirrors, with all quotes submitted after June-17-2016 having to select one of the Accustyle mirrors.

Service parts for the Eurostyle mirrors will continue to be available through our parts dept.

Below is a matrix detailing the one for one changeover from Eurostyle to Accustyle.
