Engine Coolant Change

This bulletin announces a change to **standard** equipment for the **Saf-T-Liner C2** body and chassis to the use of **Extended Life OAT** (Nitrate and Silicate Free) engine coolant. OAT coolant is guaranteed for the life of the vehicle (600,000 miles or 12,000 hours).

To differentiate from the previous standard coolant, the OAT coolant will be **red** in color and a label will be placed beneath the cooling system surge tank. Current optional coolant is still available. The change to standard is immediate.

Below is a summary of changes that will take effect in ASIST.

Feature	Description	Action
D800600000	ANTI-FREEZE,PRECHARGED SCA -34 DEGREES	Discontinued.
D800600003	ANTI-FREEZE, OAT -34 DEGREE	Released.
