NHTSA Recall No. 15V-781

CERTIFIED MAIL – R.R.R.

North American Van Lines
Attn: Mark Basset
50011 U. S. Highway 30 West
Fort Wayne, IN 46818

Dear Mr. Basset,

This notice is sent in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

Strick Trailers, LLC ("Strick Trailers") has decided that certain 28 ft. dry freight van trailers, model number S4280E99NFWO, as identified on the enclosed spreadsheet, fail to conform to Federal Motor Vehicle Safety Standard No. 223 "Rear Impact Guards".

The noncompliance is in regards to the curbside and roadside rear impact guard gussets. Strick Trailers identifies the gussets with the numbers 46829 and 46830. These gussets do not meet the requirements of Federal Motor Vehicle Safety Standard 223 pertaining to rear impact guards. This could increase the risk of injury in the event of a rear impact crash.

In order to remedy the noncompliance, it will be necessary to reinforce the curbside and roadside rear impact guard gussets in accordance with the instructions (Drawing 705703) attached to this letter. We will supply the new reinforcement parts without cost and will ship them to multiple locations at your request. The parts necessary to reinforce the gussets are expected to be available for delivery beginning on February 2, 2016. We will also reimburse you for the reasonable direct labor costs involved in effecting the repair or will have the repair facilities bill us directly. The work to reinforce the rear impact guard gussets will take approximately two and one half hours to perform.

We will make ourselves available to answer any questions that arise during the course of this modification program, and, if requested, assist you in locating qualified repair facilities. We will also provide training or any
