Re: Strick Trailers, LLC
TREAD Act - Monthly Submission Report for December 2015

To Whom It May Concern:

In accordance with the requirements of the TREAD Act with regard to any notices or other "campaign" documents as defined under Sec. 579.5 to submit for the month of December 2015, this is to advise that Strick Trailers, LLC ("Strick") has initiated one recall as described below:

Strick has determined that certain Strick single axle fixed suspension 28 foot and 32 foot dry freight van trailers that are equipped with a Strick rear impact guard that use gusset part numbers 59653 and 59654 do not meet the standards set forth in Federal Motor Vehicle Safety Standard (FMVSS) 223. The recall population includes trailers manufactured between April 2006 and February 2015. The total number of vehicles affected is 188. The percentage of vehicles estimated to contain the noncompliance is 100%. Strick filed an initial recall report with NHTSA on December 7, 2015. The NHTSA recall campaign number is 15V825. Notification to the customers involved in this matter has not yet begun.

Very truly yours,

Shari M. Solomon
General Counsel
