Section: Accessories

MASERATI

**Model Type:** Quattroporte (M156) and Ghibli  
**Model Year:** 2014 - 2016  
**Subject:** Loading Edge Protective Film

Designed to ensure the highest levels of protection for your vehicle, the new **Loading Edge Protective Film** is now available from Maserati North America, Inc. The protective film is tested and approved by Maserati Laboratories to protect the areas of the bumper that are most subject to scratches or damage caused by loading and unloading objects from the trunk.

The shaped film is transparent to protect the distinctive lines of the vehicle while simultaneously avoiding any yellowing over time. This film can also be removed without leaving behind any residue. The high quality adhesive materials make this product reliable without being subject to any failures caused by environmental stresses such as temperature changes or humidity.

### **Loading Edge Protective Film**

**P/N: 940000548 – Quattroporte**

**P/N: 940000549 – Ghibli**

**Dealer Stock: \$26.91\***

**Suggested Retail: \$39.00\***

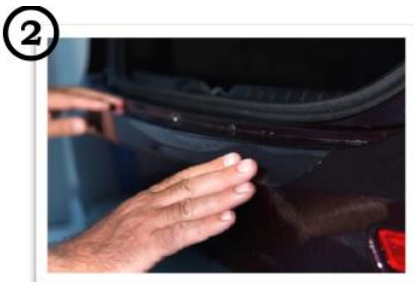

**Installation:**

Installation can be easily completed at your dealership and only requires a few quick steps and the following items:

- A sprayer
- A liter of water, with a drop of shampoo added
- Silicone spatula (included with the film)

To successfully apply the film to the loading edge, carefully clean the area with a soft cloth previously soaked in degreasing solution, to remove any traces of dirt, dust, grease, etc. Then spray the intended area for the protective film. Wet the hands to avoid leaving fingerprints on the film. Next wet the outside of the film with the mixture and remove the adhesive part. Be sure to keep wetting the film, also on the side with glue.

After removing the film, place it on the surface while locating the best possible position. The film will be able to slide on the car while the best positioning is located.

Once the best location has been determined; begin to remove the water using the silicone spatula. This will allow for the glue to properly adhere to the surface. It is important to ensure the proper position is maintained while continuing to move the spatula to remove all of the water as the glue firmly adheres to the surface of the vehicle.

Please note that all purchases of Maserati Genuine Accessories will be counted towards your annual accessories target.

For more information on these and other Maserati Genuine Accessories contact Maserati Dealer Services.
