RE: Request for Parts: 2014-2016 MDX Front Bearing Noise

This message is solely directed to Acura dealership personnel; please handle accordingly.
Print this i/N message and provide a copy to the Shop Foreman and all Service Consultants.

Background

American Honda (AHM) is investigating certain 2014-2016 MDXs with a client complaint of front bearing noise coming from the front while driving. The noise can be described as howling or moaning. To fully understand the cause of this condition, AHM would like to collect specific parts from the vehicle prior to you attempting a repair of any kind.

Qualifiers

AHM is interested ONLY if the vehicle meets the following requirements:

1. Must be able to duplicate the noise.
2. Mileage must be less than 30,000 miles.

Action Required

If you have or know of such a vehicle, please call the Technical Research & Support (TRS) Group at 800-880-1072. TRS will need to record certain vehicle information and provide you with further instructions.

Thank you.
