

## GPOP - Issue Review System

**Part Number:** 1PH98RXFA\$, 1PH99RXFA\$, 1PH98GW7A\$, 1PH99GW7A\$

**Part Description:** PANEL, Targa Top, Complete  
with Hardware

---

**Issue Description:** For water sloshing noise in the Targa Top Panel, do not replace the panel. There is a drain hole along the rear edge of the panel (in car position). After draining the panels, inform the customer of the drain hole and if the issue returns they can drain the panels themselves. Storage of panels outdoors in certain positions will cause water infiltration.~

~

For a water leak from the center front edge of the Targa Top Panels, do not replace the panels, replace the SEAL, Targa Top (Part Number 68088055AA). ~

~
