**Part Description:** Steering Column

**Issue Description:** If vehicle comes in for steering column replacement, verify column installed. Go to Info Column in Star Parts and open the flow chart to determine which column is installed. If column is Daimler, verify that a replacement Daimler column is in stock and use for replacement. If no Daimler column is in stock, replacement must use Presta column (which require a number of other componenets to be replaced). For more information and details on PN's, see L-Series Flowchart in Star Parts. Contact parts specifying for assistance regarding correct part numbers, for technical assistance contact Star.
