

# Service Bulletin

## INFORMATION

**Subject:** High Pressure Fuel System Codes

**Models:** 2016 Chevrolet Camaro  
2016 Cadillac CTS-V  
2015-2016 Cadillac Escalade  
2014-2016 Chevrolet Corvette  
2014-2016 Chevrolet Silverado 1500 Suburban, Tahoe  
2014-2016 GMC Sierra 1500 Yukon  
With engines 4.3L, 5.3L, 6.2L RPO's LV3, L83, L86, LT1, LT4

The following diagnosis might be helpful if the vehicle exhibits the symptom(s) described in this PI.

### Condition/Concern

SES light on and engine has no power during failure.

Some of the DTC's that may set are as follows P0089, P228C, P228D, P0090-P0092, P00C8, P00C9, P00CA, P0201-P0208, P0261, P0262, P0264, P0265, P0267, P0268, P0270, P0271, P0273, P0274, P0276, P0277, P0279, P0280, P0282, P0283, P0300 set

### Recommendation/Instructions

If SI has been followed and the root cause has not been isolated perform the following: Inspect terminals in connector X161 for looseness and / or black burn marks on the surface of both male and female terminals.

For DTC P0089 and P228C location 1 and 2 are the pins to look at.

The next 2 pictures show what has been found with the terminals, this could be with either connector X160 or X161.

#3 is a burnt spot plus it has poor terminal tension. This could cause any of the codes listed above

#4 and 5 Shows the male end concern

### Warranty Information

For wiring repairs covered under warranty, please refer to latest version of bulletin 10-00-89-005 for warranty information on wire/connector repairs.

Please follow this diagnostic or repair process thoroughly and complete each step. If the condition exhibited is resolved without completing every step, the remaining steps do not need to be performed.

---

GM bulletins are intended for use by professional technicians, NOT a "do-it-yourselfer". They are written to inform these technicians of conditions that may occur on some vehicles, or to provide information that could assist in the proper service of a vehicle. Properly trained technicians have the equipment, tools, safety instructions, and know-how to do a job properly and safely. If a condition is described, DO NOT assume that the bulletin applies to your vehicle, or that your vehicle will have that condition. See your GM dealer for information on whether your vehicle may benefit from the information.
