

Service Bulletin

File in Section: -

Bulletin No.: 16-NA-106

Date: April, 2016

TECHNICAL

Subject: No Start, or Stall Condition, Erratic Shifting, A/C Inoperative

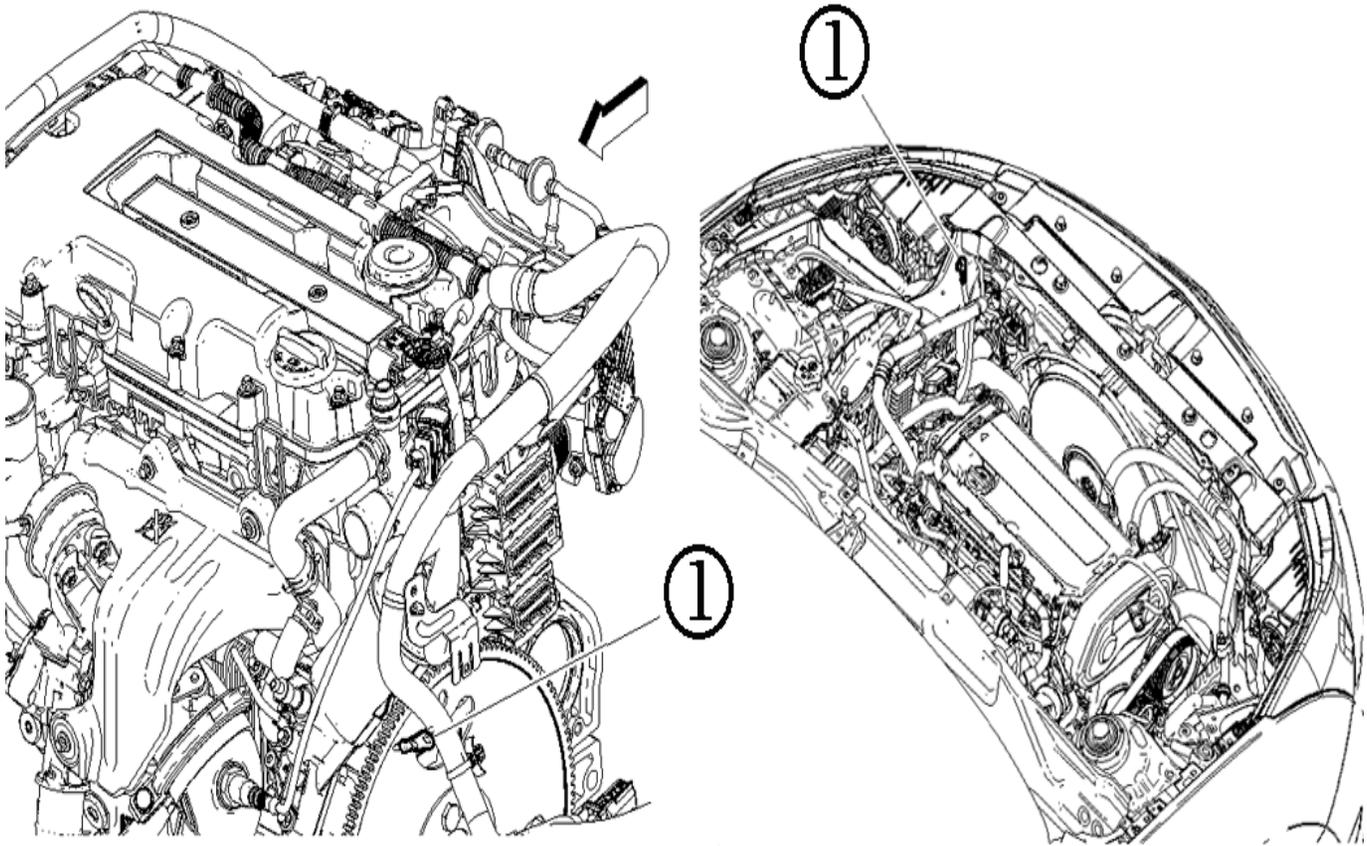

Brand:	Model:	Model Year:		VIN:		Engine:	Transmission:
		from	to	from	to		
Chevrolet	Cruze Limited (VIN P)	2016	2016			All	All

Condition	Some customers may comment that the vehicle stalls, will not start, A/C does not work or the transmission does not shift correctly.
Cause	This condition may be caused by a loose ground connection at G114.
Additional Options	Cruze Limited - VIN P

Correction

Inspect the G114 ground connections and all other grounds on the engine and in the engine compartment, and repair as needed.

Service Procedure

Inspect the G114 ground connections (1) and all other grounds on the engine. Check the engine compartment G114 ground connections (1), located on the left side, forward of the battery. Repair as needed.

GM bulletins are intended for use by professional technicians, NOT a "do-it-yourselfer". They are written to inform these technicians of conditions that may occur on some vehicles, or to provide information that could assist in the proper service of a vehicle. Properly trained technicians have the equipment, tools, safety instructions, and know-how to do a job properly and safely. If a condition is described, DO NOT assume that the bulletin applies to your vehicle, or that your vehicle will have that condition. See your GM dealer for information on whether your vehicle may benefit from the information.
