Vehicle Identification Number (Sticker)

## TIRE PRESSURE WARNING SYSTEM (TPWS) CHECK

1. Make sure that the tires are cold and set the tire inflation pressure of all tires to the specified values.

### HINT

The specified values are shown on the driver's side door jamb.

2. Connect Techstream to the DLC3.
3. Cycle ignition to "IG-ON" and turn Techstream on.
4. Enter the following menus: Chassis/Tire Pressure Monitor/Data List.
5. Confirm that the tire pressure data of all tires is displayed on the Techstream screen.

### HINT

- The order in which the data is received is random.
- It may take up to a few minutes until the values are displayed.
- If the values are not displayed after a few minutes, perform troubleshooting according to the inspection procedure for DTCs C2121/21 to C2124/24. Refer to the Repair Manual.

6. Remove the ID number labels from each wheel (if present) and discard.

### NOTE

To adjust the tire pressure correctly when the outside temperature is significantly colder than shop temperature, perform a Health Check using Techstream and select the "Compensation Tire Pressure" checkbox. Compensation pressures will be displayed on the Health Check results screen. Adjust the tire pressure when the tires are cold.

## FRONT WHEEL OPENING EXTENSION PAD INSTALLATION

The front wheel opening extension pad set (right and left front wheel opening extension pads and 10 tapping screws) is loaded in the luggage compartment at the assembly plant to avoid damage in transit.

1. Place the left front wheel opening extension pad on the installation position and temporarily tighten the 5 tapping screws. Then tighten the 5 tapping screws.
2. Finish tightening the 5 tapping screws.
3. Repeat steps 1 and 2 for the right side.

1 Tapping Screws

### NOTE

There is a mark on each pad to designate left and right side.

## FRONT LICENSE PLATE & MOUNTING BRACKET INSTALLATION\*

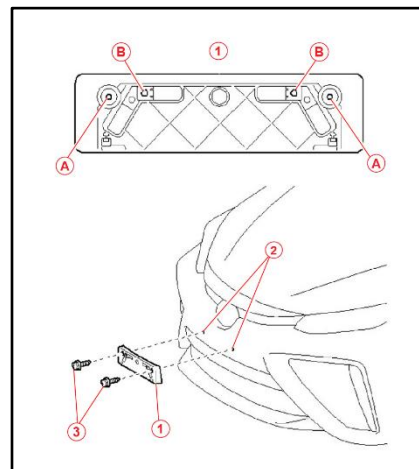

The front license plate mounting bracket and 2 self-tapping screws are loaded in the vehicle at assembly plant.

1. Align holes "A" of the front license plate mounting bracket with the dimples on the front bumper cover.

### HINT

- Holes "A" are used for installation of the mounting bracket to the bumper cover.
- Holes "B" are used for installation of the front license plate to the mounting bracket.

2. Install the front license plate mounting bracket to the front bumper cover at holes "A" using the 2 self-tapping screws.

1 License Plate  
2 Dimples  
3 Bolts

### NOTICE

- Do NOT pre-drill holes into the bumper.
- Do NOT overtighten the self-tapping screws.

3. Install the front license plate to the mounting bracket at holes "B" using 2 non-corroding type bolts with the following measurements:

**Length: 15.0 mm (0.59 in.)**

**Diameter: 6.0 mm (0.24 in.)**

**Pitch: 1.0 mm (0.04 in.)**

1 License Plate  
2 Bolts
