

Front Brakes Judder

AFFECTED VEHICLES

2014–15 Pilot

EDITOR'S NOTE: This article replaces the one posted in **July 2016** to extend the article's shelf life. The issue(s) covered are still being addressed.

Are you feeling a vibration in the steering wheel while braking? We're aware of this issue and are currently looking for a solution.

In the meantime, turning or replacing the front brake discs may offer a temporary fix.
