Text

DESCRIPTION:

DTC IGM-P0AFA00 may be set in Transport mode, i.e before Retail delivery.

If the DTC is present and the vehicle is, or can be assumed to have been in Transport mode when the DTC was set, please follow step under Service.

IGM = Inverter Generator Module

SERVICE:

Make sure that the vehicle is in Normal mode, i.e. not in Transport mode.

Erase the DTC and perform a test drive. If the DTC returns, start fault tracing according to VIDA. If the DTC does not return, it can be ignored.

VEHICLE REPORT:

Yes, please submit a Vehicle Report if the service solution described in this TJ has no effect. Use concern area "Vehicle Report" and sub concern area "Support needed", use function group 3230.
