Bulletin No.: 16-NA-194

Date: June, 2016

TECHNICAL

Subject: Check Engine Light Illuminated After Using Manual Paddle Shift Levers, DTC P16F3 Set

Brand:	Model:	Model Year:		VIN:		Engine:	Transmission:
		from	to	from	to		
Cadillac	ATS, CTS	2016	2016			Equipped with 3.6L Engine (RPO LGX)	Equipped with Automatic Transmission (RPOs M5T, M5N)
Chevrolet	Camaro						

Involved Region or Country	North America and China
Condition	Some customers may comment on the check engine light being illuminated. In some cases the check engine light may have illuminated after using the manual paddle shift levers. A Technician may find DTC P16F3 set or stored in history.
Cause	This condition may be caused by software anomaly.

Correction

Update the transmission control module (TCM) with the latest software available from TIS2WEB.

Service Procedure

Refer to *K71 Transmission Control Module: Programming and Setup (8L45/90)* in SI.

Warranty Information

For vehicles repaired under the Bumper-to-Bumper coverage (Canada Base Warranty coverage), use the following labor operation. Reference the Applicable Warranties section of Investigate Vehicle History (IVH) for coverage information.

Labor Operation	Description	Labor Time
2810175	Transmission Control Module Reprogramming with SPS	Use Published Labor Operation Time

GM bulletins are intended for use by professional technicians, NOT a "do-it-yourselfer". They are written to inform these technicians of conditions that may occur on some vehicles, or to provide information that could assist in the proper service of a vehicle. Properly trained technicians have the equipment, tools, safety instructions, and know-how to do a job properly and safely. If a condition is described, DO NOT assume that the bulletin applies to your vehicle, or that your vehicle will have that condition. See your GM dealer for information on whether your vehicle may benefit from the information.
