Subject: John Bean VAS701001 Aligner (new) Vehicle Data Update for Pro42 (VAG-04.2016)

Supersedes ATE-16-06 dated March 10, 2016 due to Vehicle Data software updates.

This communication provides important information on how to obtain and install the latest software for the **John Bean VAS701001 alignment machine model**.

Latest Software Versions Released:

• Pro42_vag032016.exe (vehicle data update April, 2016)

Installation Requirements:

- All John Bean VAS701001 Aligners must be previously updated to **Pro42** Program software version 5.0 or higher before performing this update.
- Attain a copy of Vehicle Specification updates installation instructions (see attachments)
- Dealers must download pro42_vag032016.exe file (vehicle data update April, 2016) from ServiceNet>> Wheel Alignment Software >> John Bean

Installation:

To update the John Bean the VAS701001 aligner, please read and follow the Vehicle Specification updates installation instructions attached.

Questions regarding installation of software updates to VAS701001 (after they have been downloaded), can call EquiServ technical support desk (service group for John Bean) at 800-225-5786. EquiServ will also be able to help with Aligner software and specifications installed from CD.
