SUBJECT: Label Update for GHG14 Test Aftertreatment Control Module (ACM)

ISSUE

Essential tool part number W060589186300 / GHG14 Test ACM Unit (labeled A0004465954 / 002 D3) can also be used with GHG17 Heavy Duty (HD) DDEC-equipped vehicles.

NOTE: Do not use this label on the test ACMs that do not have the D3 hardware level as indicated in the compatible hardware example provided in this letter. If your GHG14 has a D1, or D2 hardware level, refer to tool letter 16 TL-15 for GHG17 test ACM ordering instructions.

As a courtesy, new labels will be mailed per your request. Please use the instructions below to email your request.

INSTRUCTIONS

Email dtnalabels@daimler.com the following to receive the label update for your compatible Test ACM:

- Service Center
- Delivery Address
- Contact Name
- Phone Number
- Number of Labels Requested

Once you receive the label update, affix to your compatible GHG14 Test ACM.

EXAMPLE OF COMPATIBLE HARDWARE

Compatible GHG14 ACM hardware should read A0004465954 / 002 D3 on the label.
The D2 and D1 hardware are not compatible with GHG17.

Please affix the label provided as described/shown in this document. Completely remove or cover the existing label.

**W060589226300/GHG14 and GHG17
HD Test ACM Unit**

Please email csc.software@daimler.com if you have any questions.
