

# Service Information

**Special Tools & Equipment**

**Number: VSE-16-17**

**Subject: Wheel Alignment Software Updates**

**Date: July 25, 2016**

Supersedes all previous wheel alignment software circulars.

This communication provides important information on how to obtain the latest available wheel alignment software program for Volkswagen vehicles through ServiceNet. This circular will be updated whenever a new version of wheel alignment software is available.

The instructions, files, and other documents are all found on ServiceNet by going to: *Workshop Equipment > Wheel Alignment Software > Select the machine manufacturer that you have*. Each brand of wheel aligner has its own software installation instructions and files to use. Please see the list of the latest versions below:

<b>Hunter</b>
