

## New Engine Oil Available: 0W-16

### AFFECTED VEHICLES

2014, 2015, and 2017 Accord Hybrid; 2014 Accord Plug-In

**EDITOR'S NOTE:** This article revises the one posted earlier in **January 2017**. Changes are highlighted in **yellow**.

There's a new engine oil available: **Honda Ultimate Full Synthetic 0W-16 Motor Oil (P/N 08798-9062)**. This new oil is designed to further reduce friction and improve efficiency. It comes only in 1-quart bottles, and all Honda dealers were shipped a case of it at the end of last year.

Right now, 0W-16 is strictly for use in the 2014, 2015, and 2017 Accord Hybrid and the 2014 Accord Plug-In as an alternative to 0W-20. **Do not** use it in any vehicle that's not approved for it, or engine failure can result.

We expect this new oil may be approved for use in future models/model years.
