Emissions Recall: 2017 Accord V6 OBD Catalyst System Monitor

Dear

On some 2017 Accord vehicles, there is an internal programming issue with the powertrain control module (PCM). The PCM software that manages the onboard diagnostics (OBD) system catalyst monitor is not performing to specification.

What will Honda do?

Honda will update the software in the PCM free of charge. Contact any authorized Honda dealer for an appointment to have your vehicle repaired. Please plan to leave your vehicle at the dealer for at least half a day to allow them flexibility in scheduling.

California Owners Only

The DMV will not renew your registration until this emissions recall has been completed. After completing the repair procedure, your dealer must give you a Vehicle Emission Recall - Proof of Correction certificate. Please make sure the dealer completes and gives you the certificate. Keep the certificate for your records as proof that the emissions recall was completed. Submit the certificate to the DMV only if the DMV requests it.

Check Your Vehicle for Open Recalls

To check your vehicle's eligibility for repair under this or any other recall, please access the Honda Recall Lookup tool at www.recalls.honda.com and enter your Vehicle Identification Number (VIN).
