RE: Request for Parts: 2016-2017 Accord V6 12V Battery Failure

*This message is solely directed to Honda dealership personnel; please handle accordingly.  
Print this iV message and provide a copy to the Shop Foreman and all Service Advisors.*

**Background**

American Honda (AHM) is investigating certain 2016-2017 Accord V6s with a customer complaint of a no-start condition that requires the 12V battery to be replaced. To fully understand the cause of this condition, AHM would like to collect specific parts from the vehicle prior to you attempting a repair of any kind.

**Qualifiers**

AHM is interested ONLY if the vehicle meets the following requirements:

1. Battery test indicates the battery replacement is needed.

**Action Required**

If you have or know of such a vehicle, please call Technical Research & Support (TRS) Group at 800-880-1072. TRS will need to record certain vehicle information and provide you with further instructions.

Thank you.
