Subject: 488 Challenge Technical Documentation

To support you in the planning of Spare Parts for the new 488 Challenge, we have released a preview of the new Spare Parts Catalog on the Technical Documentation Pen drive for the 488 Challenge.

The Pen-drives will be available in Italian and English and will initially only include the Spare Parts Catalog. The Workshop manual and Electrical Diagrams will be available via update at a later time.

-ITALIAN 488 Challenge Tech Doc. USB key: p/n 70004791

-ENGLISH 488 Challenge Tech Doc. USB key: p/n 70004792

The contents will not be available on New Modis, but the pen drive does feature a multi-access function so you can network the pendrive in your workshop.

Thank you for your co-operation.
