Section:

Model Type: 488 Challenge
Model Year: All
Subject: New Marelli Motorsport telemetry software availability

We inform you that the new Marelli Motorsport software for the 488 Challenge data-logger and telemetry data management is available at the address below.

The new installation files for Wintax_SAT (one for 32bit and one for 64bit) and Sysma SAT (no difference between 32bit and 64bit) are available at the following address

<https://safeexchange-motorsport.magnetimarelli.com/SFE/>

You can get the generic access by using the following:

Username: Ferrari_Customer

Password: Password\$2017

Remember that you need a dedicated USB drive to install the software and use it on your computer.

The USB drive is released for customers and available in any new cars together with the documentation, and is available with Spare Parts number 340284

For any details about the installation procedure and the use of the software, please refer to the information released for the 488 Challenge Technical Training Course

Thank you for your co-operation.
