

# Preliminary Information

## PIC6261 Rearview Camera Screen Bright at Night

### Models

Brand:	Model:	Model Years:	VIN:		Engine:	Transmissions:
			from	to		
Buick	LaCrosse	2017	All	All	All	All
Involved Region or Country	North America					
Additional RPO/s	N/A					
Condition:	<p>Some customers may complain that the rear view camera display is too bright when driving at night. (See Picture 1)</p> <p>When first placed in reverse the rear camera display is extremely bright and washed out. (See Picture 2)</p> <p>After the display has been illuminated for a short time the display improves but is still very bright.</p>					

### Correction:

This concern is caused by a software calibration issue. Do Not Replace Any Parts for this concern. Please apologize to the customer for the inconvenience and advise them that GM engineering is working on a software update that will correct this issue. This PI will be updated when a repair is available.
