

# Service Bulletin

## TECHNICAL

**Subject:** Rattle or Flutter Noise from Side Door

Brand:	Model:	Model Year:		VIN:		Engine:	Transmission:
		from	to	from	to		
Chevrolet	Trax (1st Position of VIN - 3)	2017	2017			All	All

<b>Involved Region or Country</b>	North America
<b>Condition</b>	Some customers may comment on hearing a rattle or flutter noise coming from a side door.
<b>Cause</b>	The cause of the condition may be wind passing through the door catching a loose segment of the door water deflector, causing it to rattle/flutter.
<b>Correction</b>	Remove the door trim panel and reinstall the water deflector, as necessary, on the affected door.

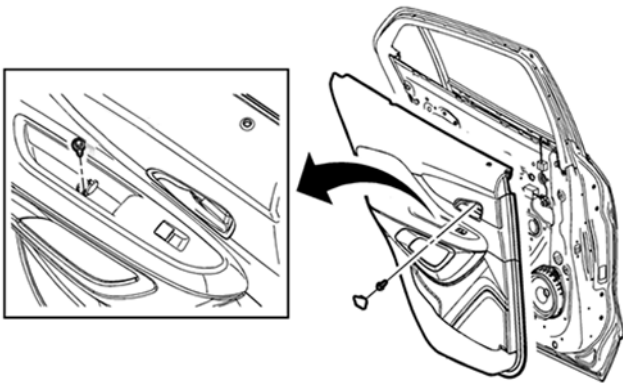

### Warranty Information

For vehicles repaired under warranty:

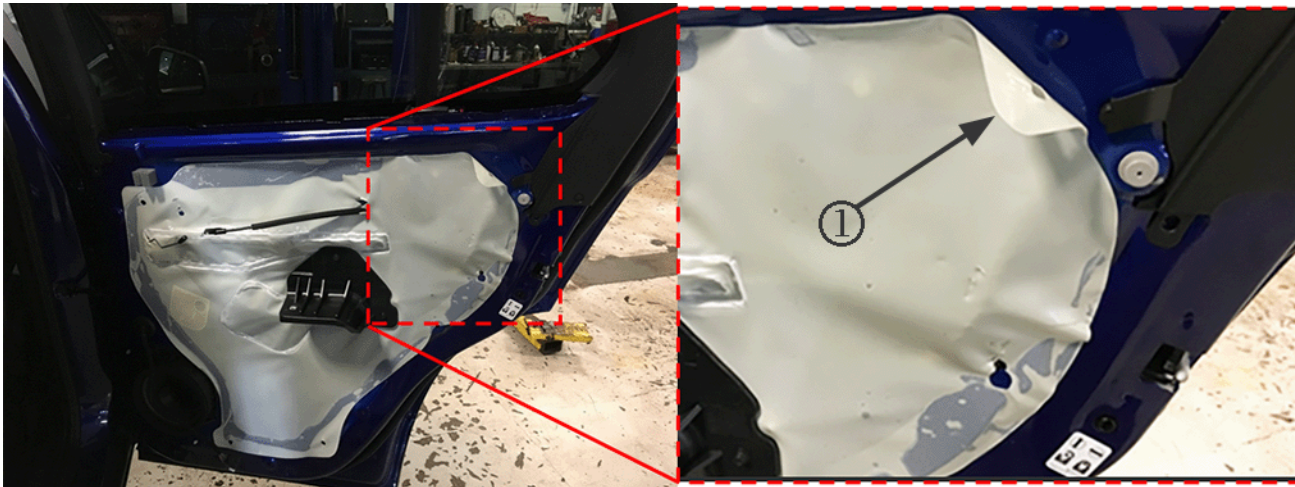

Labor Operation	Description	Labor Time
1480788*	Re-secure Side Door Water Deflector (Front or Rear)	0.3 hr

\*This is a unique Labor Operation for Bulletin use only.

### Service Procedure

1. Remove the trim panel on the affected door. Refer to the appropriate *Front or Rear Side Door Trim Replacement (Chevrolet)* in SI.

2. Inspect the door water deflector for any areas (1) where the deflector may have pulled loose from the door sheet metal. Re-secure the deflector.
3. Reinstall the door trim panel. Refer to the appropriate *Front or Rear Side Door Trim Replacement (Chevrolet)* in SI.

<b>Modified</b>	

GM bulletins are intended for use by professional technicians, NOT a "do-it-yourselfer". They are written to inform these technicians of conditions that may occur on some vehicles, or to provide information that could assist in the proper service of a vehicle. Properly trained technicians have the equipment, tools, safety instructions, and know-how to do a job properly and safely. If a condition is described, DO NOT assume that the bulletin applies to your vehicle, or that your vehicle will have that condition. See your GM dealer for information on whether your vehicle may benefit from the information.
