

Preliminary Information

PIC6290 Brake Thump Bump Feel or Noise When Braking

Models

Brand:	Model:	Model Years:	VIN:		Engine:	Transmissions:
			from	to		
Cadillac	CT6	2016 - 2018	All	All	All	All
Involved Region or Country	North America					
Additional Options (RPO)	N/A					
Condition	Some customers may comment of a thump, bump , or noise during sudden brake application with no steering wheel angle. Condition is more noticeable at low vehicle speeds, coming to a stop, and slightly letting off brake and then re-applying the brake.					
Cause	Engineering is investigating the concern.					

Correction:

Do not replace any parts, Engineering is investigating the concern. This PI will be updated once a solution is available.
