

Entune™ 3.0 App Suite Connect

Service Category Audio/Visual/Telematics

Section Navigation/Multi Info Display

Market USA

Toyota Supports
 ASE Certification 

Applicability

YEAR(S)	MODEL(S)	ADDITIONAL INFORMATION
2018	Avalon, Camry, Sienna	

Introduction

An initialization procedure is required to activate the Entune™ App Suite Connect for Entune™ 3.0 Audio, Entune™ 3.0 Audio Plus and Entune™ 3.0 Premium Audio head units before they are used for the first time on new vehicles. The initialization procedure may also need to be performed under other circumstances, such as following a head unit replacement or after the customer's personal settings are erased. The initialization procedure requires between 3 and 15 minutes to complete, depending on file size, cellular connection speed and other factors. Following the initialization procedure, individual Entune™ Apps may also be periodically updated through an over-the-air update system. Updates can come in "Optional" or "Mandatory" form.

The update procedure will take approximately 1 minute for each application requiring an update. Follow the procedure below to perform the initialization procedure or App updates when necessary.

Entune™ 3.0 App Suite Connect

Initialization/Update Procedure

NOTE

On Entune™ 3.0 Audio models, an Entune™ compatible cell phone and an active Entune™ account are necessary to perform initialization or updates. If the vehicle is equipped with Entune™ 3.0 Audio Plus or Entune™ 3.0 Premium Audio, go to step 4.

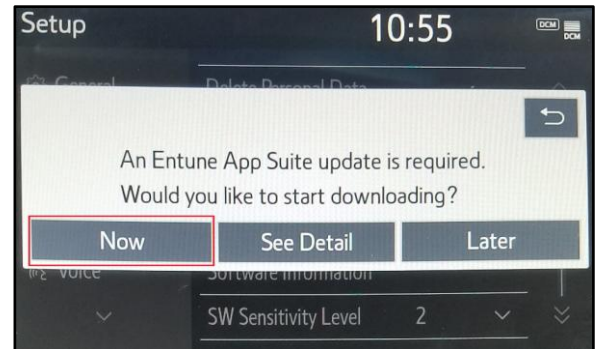

1. Refer to the “Toyota Bluetooth® Compatibility Information” link on the Technical Information System (TIS), under *Diagnostics – Telematics*, to verify cell phone compatibility.

NOTE

Make sure to connect the cell phone to Wi-Fi to avoid cell carrier charges.

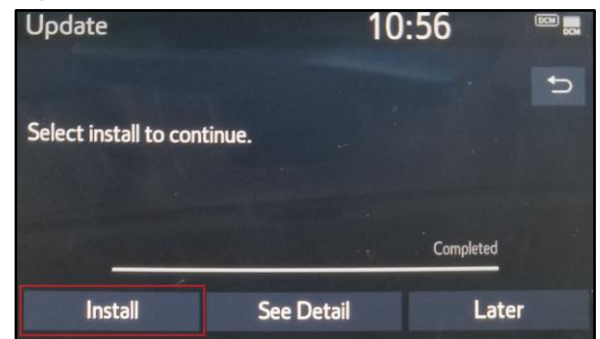

2. Connect the cell phone to the vehicle via Bluetooth®. Follow the steps outlined in the “Quick Pairing” instructions on TIS.
3. Open Entune™ App Suite Connect on the cell phone and sign in with a Toyota Owners account or a guest user account.
4. Once the cell phone has been paired on Entune™ 3.0 Audio models, or once Ignition “ON” has been performed on vehicles with Entune™ 3.0 Audio Plus/Entune™ 3.0 Premium Audio, a pop-up notification will appear on the head unit.
5. Select *Now* on the head unit.

Initialization/Update Procedure (Continued)

7. A pop-up will display stating that the Entune™ App Suite will not be available during the download. Select the *Continue* button to proceed.

Figure 3.

8. Once the installation is complete, select “OK.”
9. Confirm that the update is complete by opening an App within the vehicle’s App Suite.

NOTE

On Entune™ 3.0 Audio models, the paired cell phone is used to download the software required for the vehicle update.
