

TOP TIER™ Detergent Gasoline Availability: The List Keeps Growing!

AFFECTED VEHICLES

General Information

EDITOR'S NOTE: This article replaces "TOP TIER Detergent Gasoline: We Recommend It" posted in **June 2010**.

When it comes to meeting the needs of today's advanced engines, you can't beat TOP TIER Detergent Gasoline. It's the premier standard for gasoline performance, and we fully recommend it to help maintain vehicle performance and reliability.

Fuel that meets these high standards is guaranteed to have the proper level of detergent additives and to be free of harmful manganese-based fuel additives such as MMT. This helps avoid the build-up of deposits in the engine and emission control system.

Since TOP TIER Detergent Gasoline was first introduced, the number of licensed retail brands has steadily grown. Just look how many there are as of **July 27, 2017**.

TOP TIER™ Licensed Retail Brands
