Information	<p>General Motors has identified an issue with the use of certain oils in the 2.0L turbo engine (LTG) that could result in premature engine piston failure. When performing an oil change on the 2.0L turbo engine, it is required to use a low calcium oil, ACDelco Dexos1 Full Synthetic 5W-30.</p> <p>If ACDelco Dexos1 Full Synthetic 5W-30 is not available, use Mobil1 Full Synthetic 5W-30 oil or Mobil1 Extended Performance 5W-30.</p>

GM bulletins are intended for use by professional technicians, NOT a "do-it-yourselfer". They are written to inform these technicians of conditions that may

occur on some vehicles, or to provide information that could assist in the proper service of a vehicle. Properly trained technicians have the equipment, tools, safety instructions, and know-how to do a job properly and safely. If a condition is described, DO NOT assume that the bulletin applies to your vehicle, or that your vehicle will have that condition. See your GM dealer for information on whether your vehicle may benefit from the information.
