This is to revise and replace TRP 1892, dated 18-Apr-17. This revision is to:

- 1. Narrative revision, and**
- 2. parts update.**

If additional information is required, please contact your Cummins Warranty Operations Group Leader.

Description

This TRP is being issued for low-mileage / low-hour fuel injector failures on certain ISM/QSM and N14/QSN14 engines. This TRP authorizes certified repair locations to replace up to five non-failed fuel injectors when one or more fuel injectors are found failed on eligible engines with less than 400 hours in service for industrial applications and engines with less than 30,000 miles (48,000 km) in service for automotive applications.

Action

In order to qualify for repair under this field action, an engine:

1. will be covered In the Base Engine Warranty period, and
2. **must** show an OPEN status for this field action on QuickServe® Online, and
3. **must** have a Build Date between 14-Mar-2016 and 15-Aug-2016, and
4. **must** have less than 400 hours for industrial engines or less than 30,000 miles (48,000 km) for automotive engines, and
5. **must** have a confirmed injector failure associated with a customer complaint.

After verifying that the engine meets the above requirements, perform the following actions:

1. Replace the non-failed fuel injectors. Refer to Injector procedure 006-026 of manual 3666322 and 4310591.
2. File one claim for maximum quantity of five injectors of the appropriate part number and maximum quantity of five for the appropriate SRT for injector remove and install - each additional.

Note : All other charges associated with the repair of the failed fuel injector(s) including access, travel, troubleshooting, etc, cannot be claimed on this TRP and must be filed to applicable coverage.

Material Disposition

Materials removed as a result of this field action that have core value should be sent to ReCon unless flagged by the Enhanced Parts Return (EPR) process. Parts flagged via the EPR process should be returned following the stated instructions. Material removed with no core value should be scrapped.

Reimbursements

Parts

Note : All parts listed are optional. Claim **only** the parts required to complete the repair. Additional parts, such as o-rings, gaskets and fasteners, that are required to complete the repair, but **not** listed, may be claimed if sufficiently explained in the claim narrative. Additionally, due to local laws, RX/PX parts may not be available for use in the repair. If this is the case for your region, use the New part equivalent of the appropriate ReCon part.
